

Plant list APRIL 2025 MLBG

This is a list of the plants that will be available at the sale at MLBG on Sunday 27 April 2025. There will be other plants donated from the nursery which are not on this list.

Our growing group is aiming to present plants that are not readily available from regular retail nurseries and we are in the process of propagating a variety of South American, African, and Australian plants to achieve this.

Milton Bowman
Growing Group convenor
