

Plant Sale List Mt Lofty Botanic Garden (MLBG) 2025

This is a list of the plants that will be available at the sale at MLBG on Sunday 23 March 2025. There will be other plants donated from the nursery which are not on this list.

Our Growing Group is aiming to present plants theatre not readily available from regular retail nurseries and we are in the process of propagating a variety of South American, African, and Australian plants to achieve this.

An example in today's list is *Hydrangea strigosa*, which is rare but quite spectacular when well grown. It will thrive in Hills gardens and I have seen a good specimen in North Adelaide.

Milton Bowman
Growing Group convenor

Amomyrtus luma Chile
Backhousia citriodora
Buddleja officinalis
Buxus microphylla (japonica)
Chrysanthemum x morofolium
Cornus pumila
Cornus serina flavimeia
Cantua buxifolia
Correa calycina
Correa eburnea
Correa pulchella (Pink Mist)
Forsythia x intermedia
Fuchsia species
Hebe
Hydrangea aspera Strigosa
Jovellana violacea
Kunzea pomifera
Kunzea baxteri
Lonicera nitida
Magnolia figo
Olearia strigosa
Plectranthus ecklonii
Ruscus hypoglossum
Rosa multiflora
Salvia leucantha
Salvia microphylla (Hot Lips)
Salvia buchananii
Scaevola porocarya
Saxifraga paniculata
Sparmannia africana (white flowered variety)
Templetonia retusa
Teucrium fruiticans
Tecomanthe speciosa
Weigela florida Alba
